

COMPREHENSIVE PROTOCOL

ROADMAP TO HEALTH

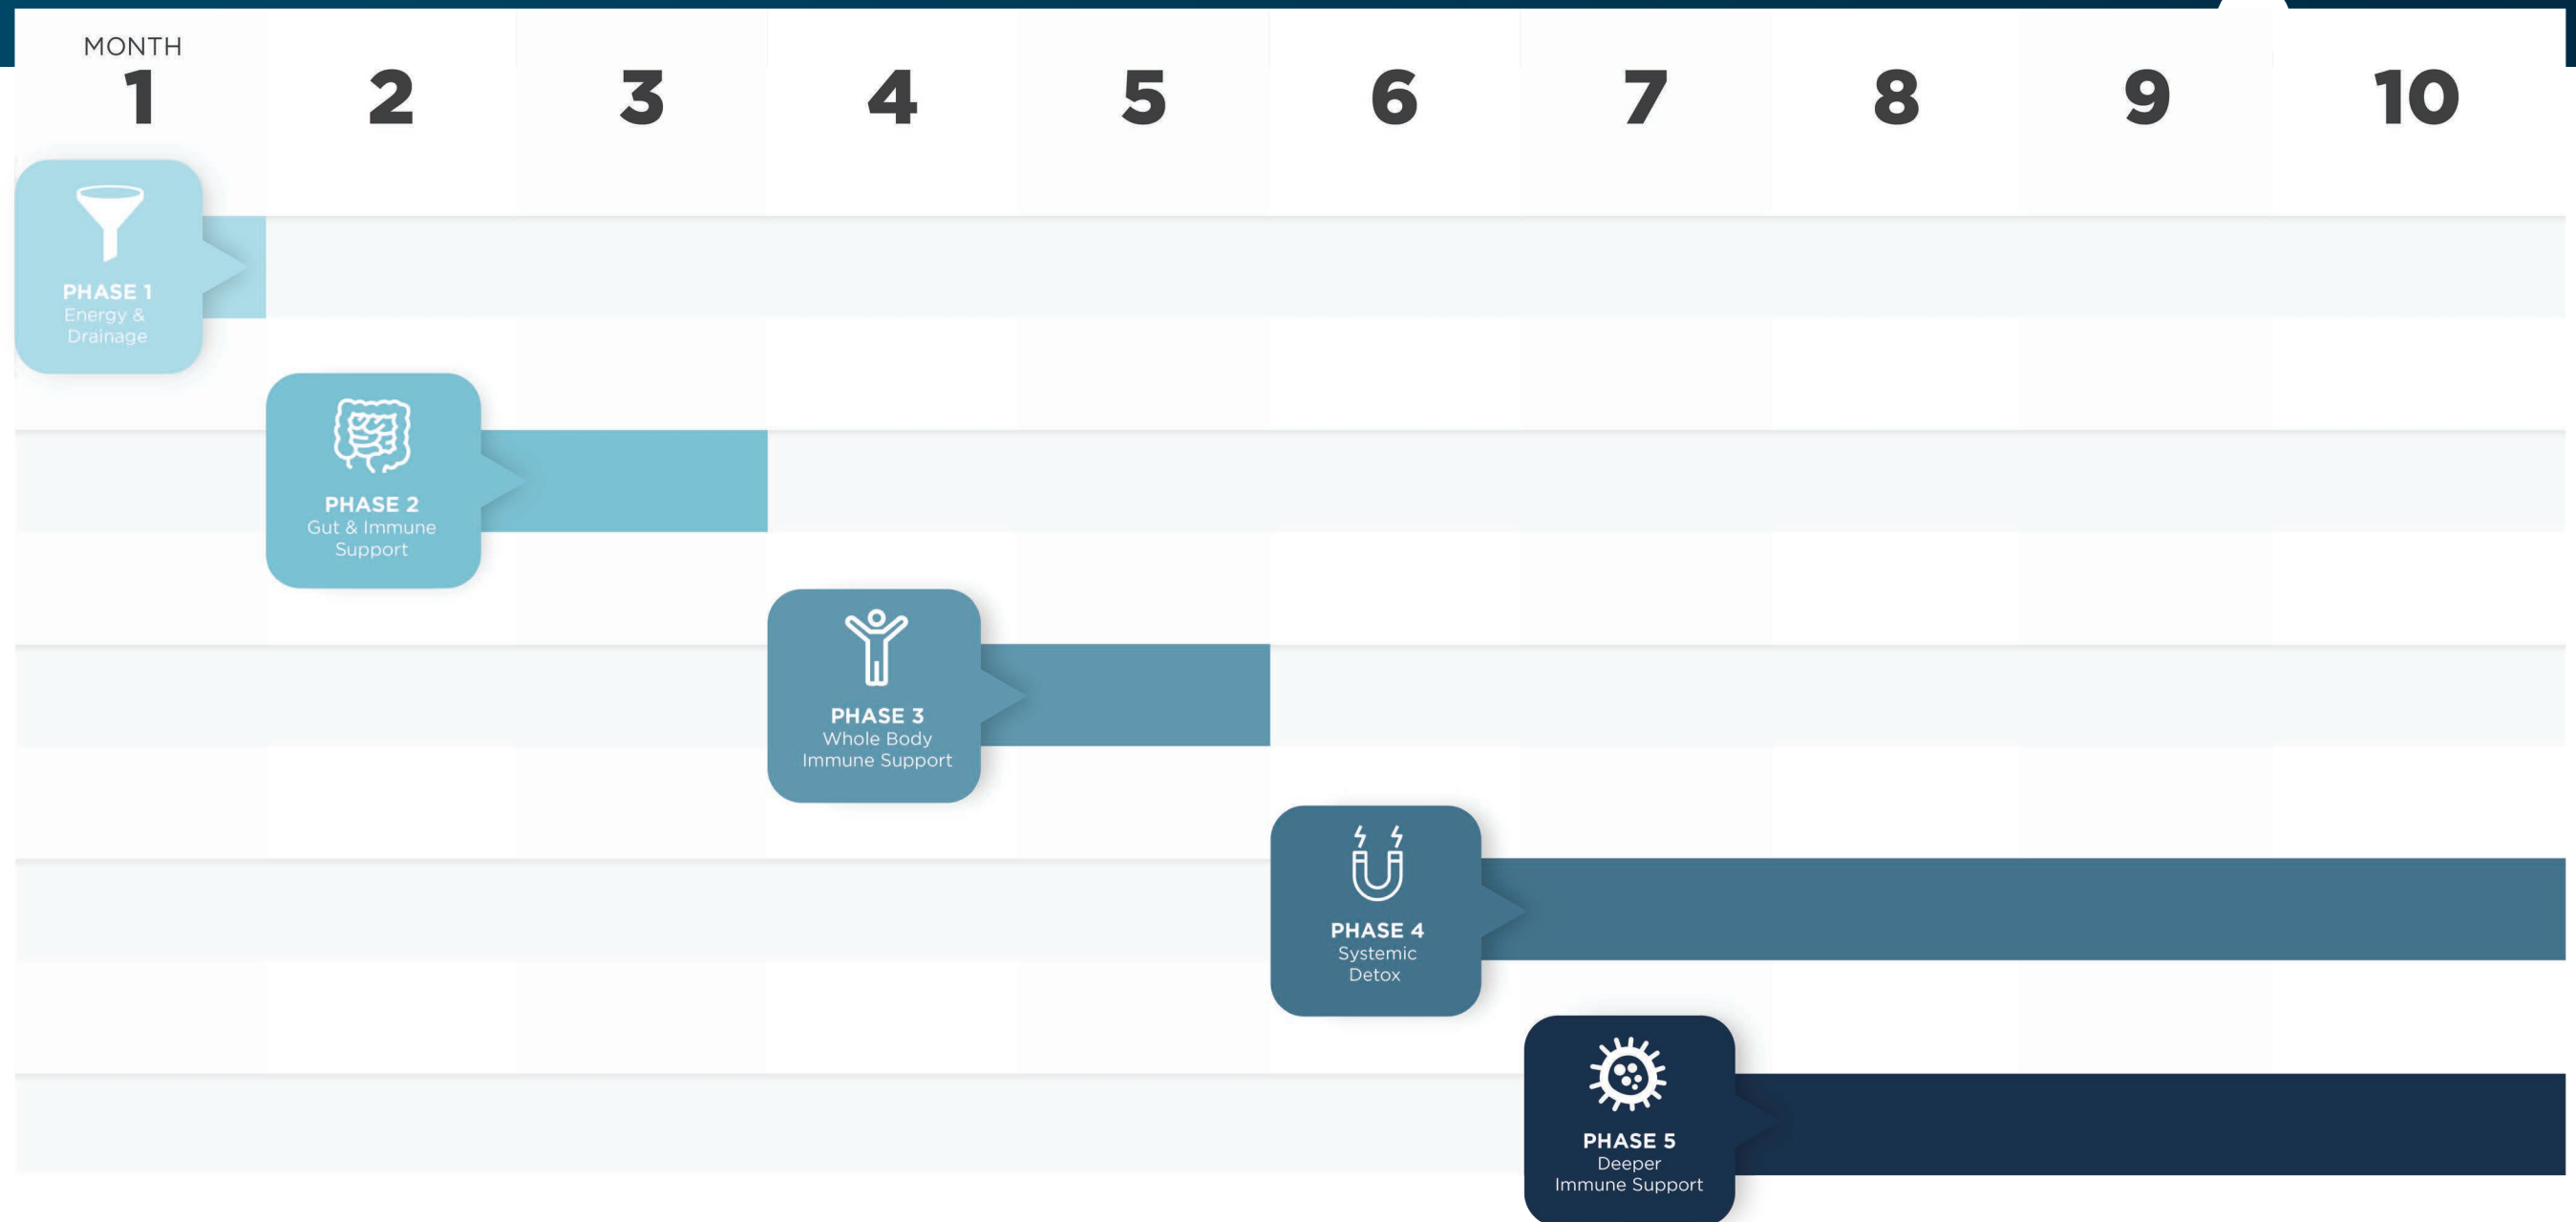

As with any important journey, an effective roadmap is critical to success. Your Roadmap to Health is designed to help you understand how to take the trip and what to expect along the way. It will also help in navigating and understanding some of the detours, challenges, and important mileposts of a successful health journey.

YOUR BODY'S DRAINAGE FUNNEL

COMPREHENSIVE TIMELINE

Phase 1

ENERGY & DRAINAGE

PREPARE

THE BODY FOR A SUCCESSFUL
TRUE DETOX EXPERIENCE

Support Drainage

Provide the body with the help it needs to maintain a healthy liver and intestinal drainage. Keep unwanted elements moving easily out of the body.

Sustain Energy

Harness the power of Carbon Technology to nurture the mitochondria — the cellular energy powerhouses. Energy is required for good drainage.

Minimize Reactions

Give the body's natural filtration systems a helping hand. Bind unwanted elements and byproducts to maintain well-being on the journey.

Phase 1 Dosages

	WAKE UP	MORNING	NOON	EVENING	BEDTIME
Advanced TUDCA		1 🍷		1 🍷	
Bowel Mover		1 🍷		2 🍷	
BioToxin Binder		2 🍷		2 🍷	
CT-Minerals		10 🍷		10 🍷	
IFC		2 🍷		2 🍷	

DOSING NOTES:

- **CT-Minerals**
- Take 10 drops twice daily. Add drops to 1 ounce of water.
- **Bowel Mover**
- Important to adjust dosing for your body.

**All products in Phase 1 can be taken together.

Phase 2

GUT & IMMUNE SUPPORT

SUPPORT

THE IMMUNE SYSTEM & REMOVE
INTESTINAL RESIDUE

Scrub the Gut

Support the gut's regular "house-cleaning" functions. Use plant-based ingredients to help "scrub out" unwanted materials and common intestinal buildup.

Remove Toxins

Continue assisting the body's routine elimination of toxins. That includes supporting kidney and liver drainage by taking natural plant compounds.

Support Microbiome

Gently nurture the gut's natural, healthy balance of bacteria and other microbes. Keep digestive juices flowing and intestinal contents moving.

Phase 2 Dosages

	WAKE UP	MORNING	NOON	EVENING	BEDTIME
Advanced TUDCA		1 🍯		1 🍯	
KL Support		2 🍯		2 🍯	
BioToxin Binder		2 🍯		2 🍯	
Para 1	2 🍯				2 🍯
Para 2	2 🍯				2 🍯
CT-Minerals		20 💧		20 💧	
HydrOxygen		10 💧		10 💧	

DOSING NOTES:

- **Para 1**
- Taking 20-40 minutes before you eat is a great time. Needs to be taken 1 hour away from all binders, including BioToxin Binder.
- **HydrOxygen**
- Add drops to 1-ounce of water. Can be taken with CT-Minerals. For optimal results, take separately from CT-Minerals (10-15 seconds).
- **CT-Minerals**
- Add drops to 1-ounce of water. For optimal results, keep 10-15 seconds away from HydrOxygen.

Phase 3

WHOLE BODY IMMUNE SUPPORT

BUILD

MOMENTUM FOR A DEEPER DETOX

Build on Success

Build on the solid groundwork that you have established. Ramp up efforts to support healthy immune system balance and function.

Move Beyond Gut

Support normal, systemic detox with Carbon Technology. With an ability to travel beyond the gut, this is the game-changer your protocol needs.

Prep to Go Deeper

Get ready to go deeper in the journey. Nurture the body's natural detoxification of mild environmental exposures to unwanted elements.

Phase 3 Dosages

	WAKE UP	MORNING	NOON	EVENING	BEDTIME
LymphActiv		1 🍷		1 🍷	
Advanced TUDCA		1 🍷		1 🍷	
ViRadChem Binder		2 🍷		2 🍷	
Para 1	2 🍷				2 🍷
Para 3		10 🍷		10 🍷	
CT-Minerals		20 🍷		20 🍷	
CT-Iodine		1 🍷			

DOSING NOTES:

- **Para 1**
- Taking 20-40 minutes before you eat is a great time. Needs to be taken 1 hour away from all binders, including ViRadChem Binder.
- **Para 3**
- 3 weeks on and 1 week off. Take 5-10 drops twice daily and work up to 2 droppersful.

Phase 4

SYSTEMIC DETOX

ADDRESS

LINGERING, EVERYDAY TOXINS FROM HEAD TO TOE

Go Deeper

Peel away the layers that have stood in the way of a vibrant life and optimal health. Turn the tables on everyday toxicity and go deeper.

Remove Toxins

Support the body's routine detoxification of mild environmental exposures to elemental toxins and man-made contaminants.

Embrace Wellness

The body was made to work well. Enjoy the fruits of efforts to support the body's healthy detoxification and favorable performance.

Phase 4 Dosages

	WAKE UP	MORNING	NOON	EVENING	BEDTIME
Advanced TUDCA		1📄		1📄	
ViRadChem Binder		2📄		2📄	
HM-ET Binder		1📄		1📄	
CT-Minerals		20💧		20💧	
IFC		2📄		2📄	
CT-Iodine		1📄	1📄		

DOSING NOTES:

- **HM-ET Binder**
- Start at 1 capsule twice daily and work up to 2 capsules twice daily.
- **CT-Iodine**
- Does not need to be taken with food.

Phase 5

DEEPER IMMUNE SUPPORT

CONQUER

LONG-STANDING CHALLENGES

Nurture Immunity

Fortify your immune system's natural ability to handle foreign invaders. Support the cleanup of unwanted microbial factors.

Tackle What's Hiding

Promote immune cell activity deep within your body, such as in the joints, organs, and nervous system. Get to the root of stubborn issues.

Maintain Wellness

Nurture your body's normal health-promoting functions. Provide what's needed to help preserve optimal well-being over the long term.

Phase 5 Dosages

	WAKE UP	MORNING	NOON	EVENING	BEDTIME
MONTH 1					
LymphActiv		1		1	
IS-BORR		1		1	
MONTH 2					
LymphActiv		1		1	
IS-BART		1		1	
MONTH 3					
LymphActiv		1		1	
IS-BAB		1		1	
MONTH 4					
LymphActiv		1		1	
IS-BOOST		1		1	

DOSING NOTES:

- Begin Phase 5 a month after starting Phase 4. Continue Phase 5 for four months, introducing the products at the times indicated on the chart.
- These dosages for IS-BORR, IS-BART, IS-BAB, and IS-BOOST are starting dosages. For each of these products, work toward 10 droppersful twice daily until one bottle is gone. This upper dosage may not be reached before the

- bottle is gone, which is OK.
- One dropperful means squeezing the tip bulb fully once and letting the tincture be drawn in. The dropper will not be completely full, which is normal.
- 1 dropperful = 35 drops or almost 1/4 teaspoon

AS PART OF THE PROTOCOL

Advanced TUDCA

TUDCA (Tauroursodeoxycholic acid) is a water-soluble bile acid and liver helper. It's present in small amounts in your bile, which your body naturally produces. TUDCA helps stimulate the release of bile into your gut and detox a whole range of potentially harmful substances, including those generated during metabolic processes and contaminants from your food and the environment.

BioToxin Binder

BioToxin Binder contains long-, medium-, and short-chain carbons which act in different ways depending on where they are in the body. That's the key: they get to different areas of the body, working systemically, and not just in the gut. BioToxin Binder contains polyelectrolytes, polysaccharides, amino acids, and organic acids, and supports cellular energy production. This ability to promote life sets it apart from older spent carbons and renders them obsolete.

Bowel Mover

The result of more than ten years of development and clinical utilization. This is the perfect blend of ingredients in the proper ratio designed to provide non-habit-forming, safe, effective digestive support. Bowel Mover is specifically designed to help promote digestive and detox support while executing its primary function of supporting proper bowel function. This product is beneficial for those that struggle with constipation by providing natural, gentle bowel relief.

CT-Iodine

Iodine helps convert thyroid-stimulating hormone (TSH) to triiodothyronine (T3) and thyroxine (T4). These hormones promote proper bone and brain development, and appropriate levels of iodine are important for everyone, especially for infants and those who are pregnant. In addition to promoting normal growth and cerebral function, iodine can assist in preventing the absorption of radiation in the thyroid in the event of exposure and has shown to alleviate the symptoms of fibrocystic breast disease.

CT-Minerals

At the heart of CT-Minerals is the naturally occurring, highly refined, and naturally chelated extracts of fulvic Acid. This means 100% organically complexed nano-sized molecules that can penetrate human tissue and blood cells easily. With over 69 naturally occurring, plant-derived trace minerals and twelve amino acids, this supplement is highly bioactive and can perform numerous biochemical and metabolic detoxification functions.

HM-ET Binder

As part of our Comprehensive Protocol lineup, HM-ET Binder is typically introduced after BioToxin Binder and ViRadChem Binder. The name is simple: “HM” comes from “heavy metals” and “ET” comes from “environmental toxins.” This product is designed to focus on removing both heavy metals and environmental toxins from the system, while the Carbon Technology molecules provide the biological building blocks to heal your system.

IS-BAB

IS-BAB is a new combination of potent herbs to tackle pathogens. Stimulate your immune defenses with this tincture of fifteen herbs, including milk thistle, wormwood, Japanese knotweed, and black walnut hulls. They’ve been carefully selected and formulated to support your body’s natural immune response to some vector-borne microbes. Plus, the herbs in IS-BAB may promote a normal inflammatory response and support liver health. Start with a low dose and work your way up.

HydrOxygen

Oxygen is a highly reactive element, meaning that it bonds easily with so many other elements. This has proven a challenge in efforts to create oxygen supplements that have the ability to go systemic, and not just die in the gut. Our science team has overcome this obstacle, using proprietary processes that stabilize HydrOxygen and push it through to the organs, tissues, and cells that it needs to impact in order to accomplish its mission without dissipation or diminishing effectiveness.

IS-BART

Bust through pathogen purging plateaus with a new blend of herbs. IS-BART is designed to augment your immune function by supporting your parasite cleansing efforts. An array of antioxidants help neutralize free radicals and boost your ability to detox. Plus, carefully chosen herbs heighten your energy levels. Altogether, this band of botanicals endeavors to help you reach new goals in your quest for optimal health.

IFC

Sometimes inflammation can get stuck in the “on” position, preventing your body from functioning like it was designed to. Help fuel your body with the natural anti-inflammatories in IFC. These 11 plant-based inflammation tamers help quiet rogue inflammation back to healthy levels. This can help your body reset, promote detox, and put you on the path to optimum health.

IS-BOOST

IS-BOOST is a potent blend of herbs to supercharge your detox protocol. It’s the perfect add-on to any pathogen and parasite cleansing protocol, offering adaptogenic properties, reducing inflammation, supporting the immune system, protecting your drainage organs, and inhibiting pathogens systemically in the body.

IS-BORR

Take on pathogens like *Borrelia burgdorferi* with a new powerful plant combination. This mix of 21 traditional herbs is designed to enhance your immune function and elevate your ability to detox. It is a fast-absorbing liquid that allows you to control dosing based on your needs.

KL Support

Coupling a unique blend of natural ingredients (including NAC, milk thistle, parsley, gynostemma, collinsonia root, beetroot, and marshmallow root) with our powerful Carbon Technology, this product supports and promotes healthy kidney and liver function. As an integral part of the body's cleansing and filtering system, proper kidney function is essential to any detox protocol.

LymphActiv

The importance of establishing drainage begins with the lymphatic system, and our Lymphatic Support supplement is comprised of a variety of natural ingredients. This includes astragalus root, chuchuhuasi bark, and several other natural components whose anthraquinones, sterols, and tannins provide antioxidants and other immune-supportive properties. Coupled with our Carbon Technology molecules, LymphActiv creates the lymphatic motion needed to support drainage.

Para 1

Para 1 is CellCore's flagship immune and digestive support product. Made from Mimosa Pudica Seed, this fat-soluble supplement has the ability to deliver tangible, visible results. In the digestive tract, Mimosa Pudica seed becomes jelly-like and sticky as it scrubs the gut and grabs unwanted elements in the digestive tract.

Para 2

Developed over years of clinical trials, Para 2 is a multi-herb formula specifically designed for powerful immune and digestive support. The proprietary blend includes multiple ingredients built to maximize the body's ability to boost immune system function and detox.

Para 3

Take your immune-boosting protocol to the next level. Para 3 is not just a new combination of herbs to fight pathogens. Para 3 is designed to absorb deep into tissues to address pathogens other products can't. The tincture model allows more specific dosing options, letting you increase/decrease per the individual comfort level.

ViRadChem Binder

ViRadChem Binder from CellCore is a game-changer. It is designed to target environment toxins, industrial toxins, and radioactive elements, which in turn can halt the production of viruses. The Carbon Technology molecules are formulated at a nanoparticle level to ensure delivery of nutrients to the places they're needed most: directly into the cell. The ability to go systemic makes ViRadChem a more effective supplement and the perfect complement to detox efforts.

PROTOCOL ADD-ONS

NEED BLOOD SUGAR SUPPORT?

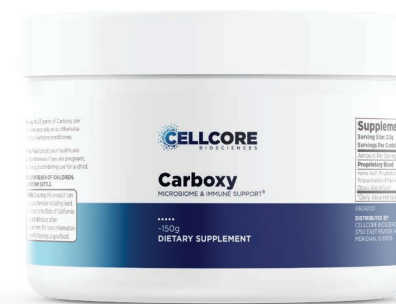

GCO

GCO is formulated with a unique combination of nutrients, herbs, and Carbon Technology that support existing healthy blood sugar levels, metabolism, and digestive function.

NEED EXTRA BINDING SUPPORT?

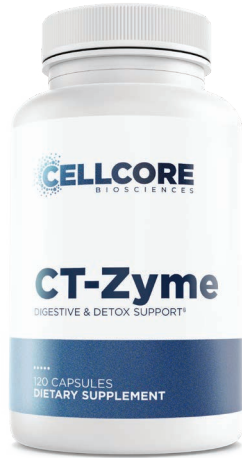

Carboxy

Carboxy is a binder that contains short- and long-chain carbons, which travel to different areas of the body to remove harmful environmental elements. That's the key: Carboxy works systemically to promote full body detoxification, moving beyond the gut.

NEED EXTRA ENZYME SUPPORT?

CT-Zyme

Support digestive function, nutrient absorption, energy production, and immunity with CT-Zyme. This proprietary blend of 11 digestive enzymes — including amylase, beta glucanase, bromelain, and cellulase — assist the body in digesting high-fiber and nutrient-dense foods, such as beans, fruit, grains, lentils, and vegetables.

NEED EXTRA GUT SUPPORT?

CT-Biotic

CT-Biotic is a blend of spore-forming and non-spore-forming bacteria combined with Carbon Technology. It provides 11 bacterial strains that are essential for supporting detoxification, digestive function, and immunity.

NEED GENTLE DETOX/IMMUNE SUPPORT?

Para 4

Para 4 is a blend of 11 potent herbs known for supporting digestion, detoxification, and immunity, including celery seed, cordyceps, holy basil, horse tail, noni root, and sarsaparilla. Together, these herbs help promote a balanced gut microbiome and red blood cell production, which supports energy production and balances oxygen levels in the body.
